PROFILE

I am an **Entry Web Developer** searching for a fixed position in a modern company where I can utilize my creative, organizational and management skills to drive growth. My previous experience as a manager and coordinator of various projects with world-renowned Video Production companies taught me to always be aware of changes and needs that may arise, and take on new responsibilities as they come. I am a "people person" and enjoy working in a fast-paced environment by staying calm under pressure.
